## WELCOME TO KN ORTHODONTICS FERNY HILLS

### Who is an orthodontist?

An orthodontist is a dentist who corrects tooth and bite alignment for children and adults. For children, both a parent and the patient are requested to attend the consultation appointment. You do not need a referral to see an orthodontist.

### Consultation Appointment

You will need to have had specialised xrays prior to your appointment with one of our orthodontists. A referral for these xrays can be organised with you over the phone while making an appointment. At the consultation, one of our orthodontists will discuss your concerns, diagnose treatment and tailor a cost for treatment.

Our consultation fee is \$75.00 and this will also cover the treatment plan appointment.

### X-Ray Review / Treatment Plan Appointment

Your orthodontist will explain your proposed treatment, the length of time for your treatment, the fee and a suggested payment plan. A written summary will be given to you at this appointment when the treatment plan is finalised. If it is time for treatment, further appointments will need to be arranged and this can be done after the treatment plan appointment.

### Location

The Ferny Hills practice is located just off Ferny Way in Ferny Hills. Our address: Suite 11 & 12 Ferny Central, 135 Ferny Way, Ferny Hills (see location page on our website).

### Parking

There is free parking available in the car park next to the building the driveway is via Ferny Way.

### Practice Hours

We will make every effort to arrange an appointment to suit your needs. Office hours are Monday, Wednesday and Friday afternoons, Tuesday and Thursday 9:30am – 5:30pm.

We look forward to meeting you!
